Importance: High

Sir,

The warranty for the ALPR that is assigned to Trooper Paine will be expiring in May. ITD obtained the above quotes for a new warranty. I spoke with Patrick who stated that his recommendation is we purchase the two year extended warranty for Software only since they have not had any issues over the past few years with hardware and he did not believe there would be any future issues with the hardware.

I would like approval to purchase the extended two year warranty for Software only at \$1,890.50 if our budget allows!

Thank you,

Lieutenant Kristene O'Shannon

Lt. O'Shannon,

Per our conversation, please see the attached two quote options for your consideration:

- Quote Washington State Patrol – Software Only – Hardware Opt Out – 2017 to 2018:
- Quote Washington State Patrol – Hardware – 2017 to 2018

Hi Patrick,

I have enclosed a software only warranty quote for 1 or 2 years of coverage. If you purchase 2 years of coverage, a 5% discount is applied.

You can purchase hardware warranty coverage until May 13, 2019 (two more years.) After 5/13/19, you will only be able to purchase software only coverage.

Tracy

Hi Tracy,

My name is Patrick Horan and I am the Project Coordinator for our ALPR environment here at the Washington State Patrol. Per below, I have been in contact with Lieutenant Kristene O'Shannon regarding the hardware warranty renewal quote. I have attached the original quote you provided. Can you please send me an additional quote so we can make a determination on how we would like to proceed?

* 2 year quote for Software Warranty

If I am reading the attached quote correctly, we have two years of available warranty coverage remaining?

Thank you!

Patrick Horan

Good Morning Patrick,

Quick question- the warranty for the ALPR we have is going to expire in May. Are we okay to purchase the warranty or do we need to go through you guys?

Kristene

Hi LT,

Looks like the warranty on the ALPR (that Brian now has) is about to expire FYI

Thanks,
Collin

Importance: High

Dear Trooper Collin Overend-Pearson,
ELSAG North America takes pride in supporting the missions of our law enforcement partners. We manufacture our license plate readers to the highest standards, conduct quality testing, and take great pride in the installations we complete. While we make every effort possible to ensure our gear holds up to the rigorous conditions and environments
Our records indicate that the warranty on your MPH-900 2 Camera LPR System will expire on May 13, 2017.

When you purchased your gear, a one-year manufacturer's warranty was included in the price. The sales quote also included line items to purchase additional years of extended warranty which would cover software updates, hardware failure, labor, and field support for up to an additional three years. The extended warranty provides valuable protection should you experience problems. Without the extended warranty a new processor would cost \$10,000, a new camera \$4,500 and field support is billed at \$1,250 a day.

We would like to offer you the opportunity to purchase the extended warranty for a maximum coverage term of four years after the original purchase date. If you do not wish to purchase the hardware warranty, ELSAG also offers a software warranty which includes access to updates and bug fixes for the MPH 900 software, ELSAG Operations Center updates, Hotlist Compatibility and 24/7 Help Desk Access.

To complete your warranty renewal and continuation of coverage, either email a purchase order OR a copy of the signed quote to me. I will confirm receipt and reinstate your warranty coverage the day the documentation is received.

If you have any other warranty-related questions in the future, don't hesitate to email me or call me at (336) 379-7135 x 3120.

Sincerely,

Tracy Brown
